

Get Right With God

© 1975 James Barton

From the **Left In The Wake** CD

The world's on the run
Brother can you feel it fly?
You say the battle's been won
Well sister did you see it die?
On the road, hard and fast and free
Listen to me

Get right with God
That's all you ever got to do, is just
Get with your God anew
And you know he'll get it right with you

Look for your face
When you're running down the road
Nary a trace can you find
Reflected in your heavy load
But if you want relief
You know it don't come cheap
You've got to find your God whoever he may be
Listen to me

Get right with God
That's all you ever got to do, is just
Get with your God anew
And you know he'll get it right with you

Get right with God first
That's all you ever got to do, is just
Get with your God anew
And you know he'll get it right with you

You've got to give if you want to live
You've got to give if you want to live
You've got to give if you want to live
You've got to give if you want to live ...
