

Hold On To Love

© 1976 Mark Hamby

From the **Tornado** CD

Hold on to love
Hearts are so unfair
Hold on to love
Keep your castle there
Hold your love, hold your love

And I'm getting that feeling, feeling, feeling
Like you're thinking about stealing, stealing, stealing away
From one who loves you, he loves you--just for me

Hold on to love
You're hanging in the wind
Hold on to love
You'll thank me in the end
Hold your love, hold your love

And I'm getting that feeling, feeling, feeling
Like you're thinking about stealing, stealing, stealing away
From one who loves you, he loves you--just for me

And I know it's nice to roam
Find your loving on your own
Someone's there to take you home
Turn around and he'll be gone
And you need your love to hold
When the nights get long and cold
And you miss your steady ride
Used to be right by your side
(repeat)

And I'm getting that feeling, feeling, feeling
Like you're thinking about stealing, stealing, stealing away
From one who loves you, he loves you--just for me

Hold on to love
It's hard for me to say
Hold on to love
Keep my kind away
Hold your love, hold your love, hold your love, hold your love ...
