

**Midnight Madness**

© 1976 Mark Hamby

From the **Tornado** CD

Midnight madness came on us fast  
All those sweet dreams just couldn't last  
Distant flashes were all the warning we had

Midnight madness shook us awake  
All those sweet dreams were on the take  
We got scattered, and all that morning was bad

I got a ride with a lady in green  
We got lost, I got lucky  
A pastoral scene for our love nest  
Rolling in clover so thoughtless  
Waving our shirts in the wind

Midnight madness blows hot and cold  
Fill your glass while you're still on hold  
It's a whirlwind just waiting there in the sky

I got a ride with a lady in green  
We got lost, I got lucky  
A pastoral scene for our love nest  
Rolling in clover so thoughtless  
Waving our shirts in the wind

The lady lies there covered and sleeping  
And I can't guess the secrets she's keeping  
She's on the other side, walking on air  
I tried to save her myself  
But this is just a wayside for strangers  
Until we leave our hearts are in danger  
Someday we'll meet again, she'll tell me everything  
I may be ready then, lend her the rest of my time

I got a ride with a lady in green  
We got lost, I got lucky  
A pastoral scene for our love nest  
Rolling in clover so thoughtless  
Waving our shirts in the wind

Midnight madness is all the rage  
Bring a note if you're under age  
Get your sea legs and kiss the family goodbye
