

Over My Love

© 1976 Mark Hamby

From the **Tornado** CD

When I came in unannounced
And no one answered to my call
I thought it's over, over
And I found you in the dark
Waiting with your wine for me
To say it's over, over my love
Over my love, over my love
Over my love, yes it's over my love

As the autumn sky goes gray
And summer nights are gone for good
We know it's over, over
So we huddle in the cold
Seems more bitter than before
Because it's over, over my love
Over my love, over my love
Over my love, yes it's over my love

Come away from the window
From the shadows on your hair
Come away from the window
From the moonlight on your tears

As we settled years ago
Seeking shelter from the storm
But now it's over, over
And with the night so still and clear
Nothing drives us to be near
And so it's over, over my love
Over my love, over my love
Over my love, over my love
Over my love.... Yes it's over my love
